

Network Provisioning

We'll Handle Your Carrier Network Provisioning from Start to Finish

Providing Turnkey Provisioning Services

Whether you need network provisioning for a new installation or you need to add, move change, or disconnect all or portions of your current network infrastructure, simply turn the task over to our team of experts and we'll work with your carrier to get the job done.

Get the Dedicated Service You Deserve

We assign a project manager to every provisioning assignment—a seasoned IT professional who understands both the technical and the procedural sides of network provisioning.

Benefit from Our Relationships

Our long-standing relationships with more than 100 carriers and service providers put us on the inside track—we know whom to contact and how to get the job done.

Count On a Proven Process

Our proven process enables us to complete provisioning projects an average of 14 days faster than carriers do.

Capitalize On Our Tenacity

When it comes to network service and support, “no” is not in our vocabulary. We're tenacious. Our sense of urgency—combined with our expertise and vendor relationships—enable us to keep your network operating smoothly.

KEY BENEFITS

One Point of Contact

When you choose Splice, you have one point of contact for all of your network provisioning needs. We manage carriers and service providers for you. We're not affiliated with any carrier or vendor, so our allegiance lies only with you.

Fast Results

We have provisioning down pat—we get the job done fast and efficiently.
